

Amendments to the Specification

Please amend para. [0019], which begins at the middle of page 6, as follows:

[0019] The system 100 shown in FIG. 1 includes multiple client devices 102a-n, a server device 104 and a network 106. The network 106 shown can be the Internet. In other embodiments, other networks, such as an intranet may be used. Moreover, methods according to the present invention may operate in a single computer. The client devices 102a-n shown each include a computer-readable medium, such as a random access memory (RAM) 108 in the embodiment shown, coupled to a processor 110. The processor 110 executes a set of computer-executable program instructions stored in memory 108. Such processors may include a microprocessor, an ASIC, and state machines. Such processors include, or may be in communication with, media storage devices, for example computer-readable media storage devices, which stores instructions that, when executed by the processor, cause the processor to perform the steps described herein. Embodiments of computer-readable media storage devices include, but are not limited to, an electronic, optical, magnetic, or other storage ~~or transmission~~ device capable of providing a processor, such as the processor in communication with a touch-sensitive input device, with computer-readable instructions. Other examples of suitable media storage devices include, but are not limited to, a floppy disk, CD-ROM, magnetic disk, memory chip, ROM, RAM, an ASIC, a configured processor, all optical media, all magnetic tape or other magnetic media, or any other medium from which a computer processor can read instructions. ~~Also, various other forms of computer-readable media may transmit or carry instructions to a computer, including a router, private or public network, or other transmission device or channel, both wired and wireless.~~ The instructions may comprise code from any computer-programming language, including, for example, C, C++, C#, Visual Basic VISUAL BASIC, Java JAVA, Python PYTHON, Perl PERL, and JavaScript JAVASCRIPT.
